

Orbility® Multipark

Andropark Mobile Cashier

Andropark is a mobile cashier application that allows payment of hourly tickets anywhere in the car park. It can be used as a queue buster at the pay stations or at the exit terminals by mobile operators. Andropark is ideal for shopping or event centers.

This equipment is part of the Orbility® Multipark system.

Features

- Andropark is a mobile cashier application that runs on a ruggedized Android smartphone (CAT B15 or equivalent), connected to the Multipark server via Wifi or 4G*.
- The payment process works as follows:
 - The cashier enters the ticket number printed on the ticket on the Andropark application and presses enter.
 - Andropark interrogates Multipark which answers with the price to be paid.
 - The cashier informs the customer about the price and validates the payment (cash, credit card**)
 - Andropark informs Multipark that the ticket has been paid.
 - The customer can then proceed to the exit. The receipt will be printed by the exit terminal on the entry ticket or on a bluetooth printer (option).
- Payments are registered under the operator's ID.
- For higher security performances, no payment data is kept in the mobile cashier memory.
- Integrated in ruggedized CAT B15 smart phone (or equivalent):
 - Touchscreen Display
 - 5MP Camera
 - GPS & Wi-Fi
 - Impact Resistant

* Wifi, 4G connection and credit card payment terminals are not included in our base offer.

** Credit card payment terminal sold separately.
